**FOR IMMEDIATE RELEASE**

## Practical Components Dummy Components Display Case Brings Training and Presentations to Life

Practical Components offers a display case containing a sampling of components. The components included range from the latest in high technology (01005s, PoPs, CVBGAs, and Flip Chips) to standard SMT packages (PBGAs, MLFs, QFPs and TSOPs). The display case is equivalent to a CD case for portability. These cases are fun and educational, providing a quick, portable, show-n-tell representation to students, co-workers, customers and vendors.

### This Display Case Contains

- PoP Top Package on Package
- PSvfBGA Bottom Package on Package
- CVBGA Very Thin ChipArray®
- PBGA Plastic Ball Grid Array
- QFP Quad Flat Pack
- LQFP Low Profile Quad Flat Pack
- MLF® MicroLeadFrame
- QFPQFN Open-molded Quad Flat Pack No Leads
- TSOP Type I
- Flip Chip
- 01005 Chip Resistor
- 0201 Chip Resistor
- 0402 Chip Resistor

- 0603 Chip Resistor
- 0805 Chip Resistor
- 1206 Chip Resistor
- SOT23 Transistor
- SOD80 Diode
- TO18 Through Hole Transistor
- 1/4 Watt Axial Leaded Resistor

**About Practical Components®**

Since 1996, Practical Components has been the world's leading supplier of dummy components, which are the exact mechanical equivalents of live components, used when only the physical properties of the components are required. These components can cost as much as 80% less than live components, making them ideal for testing of solder processes, machine setup and other process evaluations. Practical Components is headquartered in Los Alamitos CA and has a worldwide distribution network. For more information, visit [www.practicalcomponents.com](http://www.practicalcomponents.com).
